

# TAP the CASH

Specialty Tapes Manufacturing's lineup of popular, high-margin tape products can help your company *tap more cash* from the customers you serve.

Our tapes arm you with solid solutions for many industries including printing, film and paper converters, laminators, die cutters, painting, sealing, powder coating, bindery, future OEMs, bag manufacturers, framers, crafts, corrugators, and many others. Now, by expanding the type of products you offer both new and existing customers, your distributorship can realize greater opportunities for increased revenue.

It's time for you to *Tap the Cash!*

# Product List For Packaging Distributors

## Single Coated Tapes

Application	P/N	Description	Potential Customers Include:	3M Cross Reference
Hi Temp Silicone Splicing and Masking	S945	1 mil Polyester with silicone adhesive, hi temp masking - splicing of release liners, 4 colors	Printers, tape and release liner manufacturers, and end-users like paper and film converters and high temp powder coating	8402
LSE# Splicing and Bonding Tape	S975	1 mil Polyester with LSE# Acrylic adhesive for splicing & bonding. Clear, blue and red	Laminators, printing, paper and film converters, and die cutters	
Heavy Duty Poly Sealing and Bonding	S137	1.9 mil Poly Clear Film with all weather acrylic adhesive	Any carton sealing and general purpose bonding	379, 375
Hi Temp Masking and Painting	S458	Smooth, high strength crepe backing with clean removal rubber adhesive system	Any industrial and general purpose painting and sealing	231
UHMW** PE Tape with Acrylic Adhesive	S882	5 mil Polyethylene provides abrasion and wear-resistant slippery surface.	Printing and bindery chutes & guide rails, office and furniture drawer glides	5421
UHMW** PE Tape with Acrylic Adhesive	S884	10 mil Polyethylene provides abrasion and wear-resistant slippery surface.	Printing and bindery chutes & guide rails, office and furniture drawer glides	5423
Teflon/Glass Cloth with Silicone Adhesive	S0375	3 mil Teflon Coated Glass Cloth Tape with silicone hi heat adhesive. 5, 6 and 10 mil also available	PTFE glass cloth provides resistance from abrasion and extreme temperature from -100°F to +500°F. The backing provides quick release and chemical resistance. Common use includes heat sealing and surface lining for conveyers.	5451
Skived Teflon (PTFE) with Silicone Adhesive	S0311	3 mil Skived Teflon Film with silicone hi heat adhesive. 2, 5 and 10 mil also available	This film provides a conformable release surface often used at film manufacturers, shrink wrap users, bag manufacturers and others requiring anti-stick and abrasion resistance.	5180 (2 mil), 5181 (5 mil)

## Double Coated Tapes

Application	P/N	Description	Potential Customers Include:	3M Cross Reference
ATG## Transfer Tape Acrylic Adhesive	D991ATG	2 mil Acrylic Transfer Tape reverse wound on 1" cores for automatic transfer gun dispensing	Framers, crafts, printers and binderies, paper and film converters for core start-up and bag manufacturers	924
ATG## Dispenser	D-603	ATG## Tape Dispenser		
Acrylic Transfer Tape and Laminating Adhesive	D991	2 mil Acrylic Transfer Tape on 3" ID core. Bond, splice and laminate light & medium weight substrates	Framers, crafts, printers and binderies, bag manufacturers, and paper and film converters for laminating and core start-up	465, 463, 9502, 9665, 9502
D/C* Laminating and Bonding Tape	D628	D/C* .5 mil Polyester Splicing and Bonding Tape. Acrylic adhesive	Wherever a thin, high temperature double coated bonding or laminating tape is required. Commonly used at paper and film converters, die cutters, film manufacturers, and printers	9460
D/C* Laminating and Bonding Tape	D769	D/C* 1 mil Poly "Tuff Tape" High Performance. Plasticizer-resistant acrylic adhesive system	Can be found at converters, die cutters and film manufacturers using PVC films requiring plasticizer resistance and an excellent bond for indoor or outdoor applications	
D/C* Tissue Bonding, Laminating and Splicing Tape	D347A	Multipurpose D/C* Tissue with high tack acrylic adhesive. White	Economic splicing and bonding applications at corrugators (cardboard), plus laminating and bonding in a wide variety of industry	410
