

The end of cable chaos

Peels away with out leaving a residue.

Tunnel Tape from Specialty Tapes Manufacturing keeps cables in order and eliminates sticky residue on your cables.

This powerful tape adheres on the edges, not the center area. Tunnel Tape's high-tack adhesive and durable cloth backing holds the cables firmly in place reducing the chances of tripping. OSHA-compliant yellow and black striped Tunnel Tape is available for safety applications.

Applications include: taping down wires and cables in convention centers, auditoriums, stages and TV studios.

S54 & S56 Tunnel Tape

Adhesive is zone coated on edges of hand tearable and puncture resistant cloth backing creating a non-adhesive tunnel for wires, cables or cords to lay (pass) under. Removes easily from carpet and other surfaces without leaving a residue. Can be repositioned several times without loss of adhesion. Available in 3", 4" and 6" widths.

Product	S54	S56
Backing	PE Coated Cloth	PE Coated Cloth
Adhesive	Natural Rubber	Natural Rubber
Total Thickness	10 mils	11.8 mils
Adhesion to Stainless Steel	54 oz/in	29 oz/in
Service Temperature Range	-31°F to 176°F	-31°F to 176°F
Color	Black	Black/Yellow Hazard Stripe

Features

- Hand tearable
- Strong puncture resistant
- Removable
- No cable cleanup
- Repositionable

To achieve ultimate adhesion, the bonding surface should be dry, clean and free of dirt and oils. The strength of the adhesive bond is dependent on the amount of surface area directly contacting the adhesive. Firm pressure is recommended to obtain good adhesive to surface contact.

*Note: Values should not be used for specification purposes. Each user should make their own test to determine the products suitability for their own intended use and shall assume all risks and liabilities in connection therewith.

Materials should be stored at 70°F (21°C) with 50% relative humidity.

Available in black or high-visibility black and yellow.
